It's the time to speak freely without being censored!

I'm anti-drug, anti-vaccine! My body is Created and not Invented!

Are You Invented or Created?

How can you feed Created with Invented?

How can you protect Created through Invented?

Was the source of a Creature's growth and development invented or created?

Has any living Organism, or a non-living thing in humankind's history, been invented?

Think about Yourself, Your Future, Your Loved Ones, Your Children, and the Future Generations!

Think about the historical legacy you will leave behind!

Think About Who Created you!

Think you are here for now; you'll return where you belong sooner or later!

Think your power is tiny and limited versus the most incredible power that controls you, controls the world, the entire universe, and beyond!

Let history engrave your name in the gigantic stone of life, witnessing the more significant contribution you have left behind!

Only history will witness your superseded generations!

Be kind, and be good to yourself and others!

Think of the three Common Factors of Life (CFL) that unite you with all humans: Source of Creation, Body & Soul Compositions, and Dreams and Ambitions!

Think your true success from others would surpass what could come from just yourself!

Think you are the true leader of today, and your legacy will shift to your children as the stronger leaders of tomorrow!

Think to abide by the Cosmogenic Systems Laws of Nature (CSLN), which have been unified throughout all human generations!

Imagine the supernatural power you possess, simply being a human being, merely the most powerful, strongest, most intelligent, and most mysterious creature than any other creature ever existed!

Think your body is a created system and reaches the highest performance in all the Five Aspects of Health (FAH), namely Physical, Emotional, Mental, Spiritual, and Social (PEMSS), the moment you discover one of the most advanced discoveries in human history; the Haqua Revitalize® Therapy (HART); Haquapathic Medicine (HAM); or simply Haquapathy; exclusively REVITALIZING & ENERGIZING your entire system with the Four Essential Elements of Life (FEELS); namely; Water, Oxygen, Hydrogen, and Energy (WOHE)! All these represent exclusively created Non-Living Things, and not Invented!

Think your success never stops as you continue Climbing the Endless Mountains of Life (CEML)!

Each peak you reach in Climbing the Endless Mountains of Life (CEML) represents your success!

Think as you reach your Five Aspects of Health (FAH), namely Physical, Emotional, Mental, Spiritual, and Social (PEMSS) health in your Climbing the Endless Mountains of Life (CEML) journey using your Four Essential Elements of Life (FEELs) as your most potent weapons, your next level is followed by reaching the Five Factors of Wealth (FIFAW); namely, Power of Faith and Devotion; Five Aspects of Health (FAH); Happiness; Skill and Knowledge; and finally Opulence!

Think you're Climbing the Endless Mountains of Life (CEML) as your journey continues, reaching the Five Pinnacles of Transcendent Life (FPTL), namely: Emptiness, FAH, FIFAW, Two Heavens Heavenly Life (Earth & Eternal), and finally, the highest peak of your CEML, holding your trophy of victorious Transcendent Life!

Think your complete devotion to the BICADU Theory (Believe, Implement, Continue, Appreciate, Discipline, and Understand) to the role in which the Four Essential Elements of Life (FEELs) represent the only source of your creation and development, including every human being on this planet!

Think these Four Essential Elements of Life (FEELs), namely ; water, oxygen, hydrogen, and energy; represent the only source of every living organism!

Think you are the master of all nature!

Think of protecting nature to protect yourself and your superseding generations!

Stay Haquated! I want to Gulp My Haqua!
