Zinc is a fundamental mineral that is normally present in certain food sources and can also be accessible as a dietary enhancement. Zinc is engaged with various parts of cellular metabolism and catabolism. It is a vital component for the activation of nearly a hundred types of enzymes in the body [1,2] and it assumes a part in immunity [3,4], protein amalgamation [4], wound mending [5], DNA production [2,4], mitosis and meiosis [4]. Zinc likewise upholds archetypal development of the fetus throughout pregnancy, juvenile phase, and pre-adulthood [6-8] and is needed for appropriate feeling of taste and smell [9]. A day by day admission of zinc is needed to keep a consistent state in light of the fact that the body has no specific zinc stockpiling framework [10].

Recommended intakes

Age	Male	Female	Pregnancy	Lactation
0-6 months	2 mg*	2 mg*		
7-12 months	3 mg	3 mg		
1-3 years	3 mg	3 mg		
4-8 years	5 mg	5 mg		
9-13 years	8 mg	8 mg		
14-18 years	11 mg	9 mg	12 mg	13 mg
19+ years	11 mg	8 mg	11 mg	12 mg

Table 1: Recommended Dietary Allowances (RDAs) for Zinc [2].

* Adequate Intake (AI).

Sources of zinc

Food	Milligrams (mg) per serving	Percent DV*
Oysters, cooked, breaded and fried, 3 ounces	74.0	673
Beef chuck roast, braised, 3 ounces	7.0	64

Crab, Alaska king, cooked, 3 ounces	6.5	59
Beef patty, broiled, 3 ounces	5.3	48
Lobster, cooked, 3 ounces	3.4	31
Pork chop, loin, cooked, 3 ounces	2.9	26
Baked beans, canned, plain or vegetarian, ½ cup	2.9	26
Breakfast cereal, fortified with 25% of the DV for zinc, 1 serving	2.8	25
Chicken, dark meat, cooked, 3 ounces	2.4	22
Pumpkin seeds, dried, 1 ounce	2.2	20
Yogurt, fruit, low fat, 8 ounces	1.7	15
Cashews, dry roasted, 1 ounce	1.6	15
Chickpeas, cooked, ½ cup	1.3	12
Cheese, Swiss, 1 ounce	1.2	11
Oatmeal, instant, plain, prepared with water, 1 packet	1.1	10
Milk, low-fat or non fat, 1 cup	1.0	9
Almonds, dry roasted, 1 ounce	0.9	8
Kidney beans, cooked, ½ cup	0.9	8
Chicken breast, roasted, skin removed, ½ breast	0.9	8
Cheese, cheddar or mozzarella, 1 ounce	0.9	8
Peas, green, frozen, cooked, ½ cup	0.5	5
Flounder or sole, cooked, 3 ounces	0.3	3

Table 2: Zinc Content of Selected Foods [11].

* DV = Daily Value. The U.S. Food and Drug Administration (FDA) developed The DV for zinc is 11 mg for adults and children aged 4 years and older [14].
